

Free in house training

Training can be tailored to suit the needs of your business; allowing your individual teams to attend specific areas of interest, without the inconvenience of having all of your staff away from their desks at the same time.

If you or your staff would be interested in receiving a free training session please complete the Free In-House Training Request Form. Ensure you fill out each field including your specific training requirements, the approximate number of staff you would like to attend, the training session and the city in which your organisation is located.

E-Business: your online support team

The Companies Office has an e-Business team dedicated to training clients on the online services available to you. The e-Business team is available to not only give you free in-house training but also to attend any presentations, seminars or conferences that you are hosting.

Note

These training options are available to businesses and organisations located in New Zealand.
